

RESOLUTION NO. 2025-11

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PALOUSE, WASHINGTON, accepting a loan from the Washington Department of Ecology in the amount of \$6,360,000.00 at a 1.6 percent interest rate for 30 years.

WHEREAS, the City of Palouse has identified a need for improvements to the wastewater treatment plant for Inflow and Infiltration Reduction and Treatment Plant Upgrades; and

WHEREAS, the City of Palouse will use these funds as follows:

- WWTP upgrades include equipment replacement of various treatment components of the Biolac treatment system, influent screen replacement, replace influent and effluent samplers, replace aeration equipment in the aerobic digester, replace UV system parts, telemetry and SCADA upgrades, and building improvements.
- Lift station upgrades, including refurbishing and sealing the existing wetwells, replacement of pumps, piping, and electrical equipment, and installation of new generators.
- Collection system sewer main replacement to reduce I/I to include approximately 2,850 linear feet of sewer main, rehab 10 manholes, and video inspection of approximately 3,000 linear feet of sewer main.

WHEREAS, the City is not able to fund this project from reserve funds, therefore, a loan is needed to complete the required upgrades to the wastewater treatment plant.

BE IT HEREBY RESOLVED THAT THE CITY COUNCIL FOR THE CITY OF PALOUSE, WASHINGTON, does hereby accept a loan from the Washington Department of Ecology for \$6,360,000.00 at a 1.6 percent interest rate for 30 years for water system improvements.

PASSED AND ADOPTED by the City Council of the City of Palouse on this 26 day of August 2025.
